<TEXT>I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

I am on a fixed income and cannot afford a regular wireless phone, so I have only this avenue that I can afford to use when I am on the road or without regular service due too outage at my rural residence. PLEASE DO NO DO THIS so I lose what little security I have at this time.

Keep the USF Fair!

Sincerely,

Donna Davis
